Asia Culture Center

Asia Culture Center (ACC) is a global cultural complex in which sectors of Asian culture exchange, cultural resource collection and research, content production, exhibition, performance, archives, and distribution have been occurring in one place. The center has accommodated diverse cultural facilities including Democracy Peace Exchange Agency, Asian Culture Information Agency, ACC Theater, and Asia Plaza to enable visitors to enjoy themselves while creating and experiencing unique culture. The exhibition "The Great Chronicle with Earth" at ACC Creation casts a question on the community's direction to live along with the earth and enables humanity to explore the path moving forward through an intensive digital experience depicting the past, present, and future of the earth. Furthermore, the exhibition "Bittersweet" allow visitors to broaden their views to neighbors through reflecting social system that could create ideology, refugees, LGBTQ, income disparity, and the underprivileged. By doing so, the exhibition aims at proposing universal values of humanity. In addition to the exhibitions, visitors could enjoy a different aspect of the city with the ACC surrounded by soft and delicate lightings in the evening. Also, various cultural events including busking and street performances often take place in front of ACC. [\(Click to visit ACC\)](#)
